

**DR. ROMANO Q. NEYRA**

Full Professor & Senior Director for Engineering  
Far Eastern University Institute of Technology

Dr. Romano Q. Neyra, PECE, REE, LPT, ACPE, ASEAN Engr., is a distinguished engineering educator, academic executive, and quality assurance leader with over two decades of leadership, teaching, and research experience in the fields of electronics and electrical engineering. He currently serves as Full Professor and Senior Director for Engineering at FEU Institute of Technology, where he leads institutional initiatives in engineering education, accreditation, and program development.

Dr. Neyra has built an extensive career in academic administration, holding high-level positions such as Vice Dean, Program Director, Department Head, and Senior Director across institutions in the Philippines and internationally, including service in the Ministry of Higher Education in the Sultanate of Oman. His leadership spans curriculum development, laboratory establishment, faculty supervision, and strategic academic planning, demonstrating a strong capacity for institutional transformation and program excellence.

A key pillar of his professional contribution lies in quality assurance and accreditation systems. Dr. Neyra possesses more than 20 years of experience in program and institutional accreditation, including ISO, PACUCOA, PAASCU, PTC, and international accreditation bodies. He serves as a PTC Accreditor and Engineering Accreditation Commission member, PAASCU Commission member, and CHED RQAT evaluator and OIQAG validator, playing a significant role in shaping engineering education standards in the Philippines.

Dr. Neyra is a prolific researcher and conference leader, with numerous Scopus-indexed publications and technical papers. He actively participates in international and national conferences as a session chair, editor, and conference organizer, contributing to the advancement of engineering research and scholarly dissemination. His academic work is complemented by experience as a board exam reviewer and author of engineering review materials, supporting professional development in the engineering community.

Beyond academia, he maintains active engagement in professional engineering organizations, currently serving as President of the Philippine Association of Engineering Schools (PAES) and holding leadership roles in MRSP, IECEP, and IIEE. His contributions extend to policy development, academic standards, and engineering education reforms, reflecting his influence at both national and regional levels.

His career is marked by multiple national and international recognitions, including awards as Outstanding Electronics Engineer, Outstanding Registered Electrical Engineer, and Distinguished Professional in Engineering, as well as honors for research excellence and professional leadership. His recognition as an ASEAN Chartered Professional Engineer and ASEAN Engineer further underscores his international standing in the engineering profession.

Dr. Neyra represents a high-impact academic leader and quality assurance expert, whose career integrates engineering education, institutional governance, accreditation systems, and research leadership. His work continues to shape the direction of engineering education and quality standards in the Philippines and the ASEAN region, positioning him as a key figure in advancing excellence, innovation, and global competitiveness in engineering programs.
